PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D 25X1D

A bivouac and storage area is located 3 kilometers (km) west-northwest of Iman and adjacent to Grafskiy (Figure 1).

The area covers approximately 615 acres and contains 3 administration buildings, 1 probable administration building, 1 administration building/barracks, 1 barracks, 8 storage buildings, 4 revetted storage buildings, 5 probable storage buildings, 1 possible explosives storage building, 1 vehicle shed, and 42 support buildings. The area also contains approximately 226 tent bases, 1 parade field, 2 revetments, 1 motor park and trench systems (Figures 2 and 3).

The area has been covered by KEYHOLE missions of interpretable quality. Comparative

analysis of the photography from initial coverage in [REDACTED] reveals the area was constructed prior to [REDACTED] and that there has been no significant change in the number of buildings or in the level of activity (light) during the period observed. A bivouac pattern was present on the [REDACTED] coverage; however, the tent bases were not observed until [REDACTED]. On this same coverage trench systems were first identified in the northwest corner of the area; however, the trenches probably were present on the earlier coverage but the scale and quality of coverage precluded their identification.

DESCRIPTION OF INSTALLATION

Railroad Service

Rail service is available in Iman.

Road Service

A secondary all-weather road connects this area with Iman.

Administration and Troop Housing Areas

Area D1 contains 3 administration buildings, 1 administration building/barracks, 1 barracks, 26 tent bases, and 19 support buildings.

Area D2 is a bivouac area with approximately 200 tent bases.

General Storage Areas

Area E1 is partially walled and contains 1 support building and an open storage area.

Area E2 is probably secured by a single fence and contains 4 revetted storage buildings and 4 support buildings.

Area E3 is walled/fenced and contains 8 storage buildings, one 35- by 275- foot vehicle shed, and 3 support buildings.

Area E4 is walled and contains 5 probable storage buildings, 1 probable administration building, and 14 support buildings.

Explosives Storage Area

Area F contains 1 possible explosives storage building.

POL Storage Area

A POL storage area with 8 tanks is located 3 km east-southeast.

Other Buildings

One support building and 2 revetments (purpose undetermined) are located adjacent to area E4.

Equipment Storage/Maintenance Area

Area J is a 250- by 670- foot motor park.

Infantry or Combined Arms Field Training Area

Area R contains trench systems.

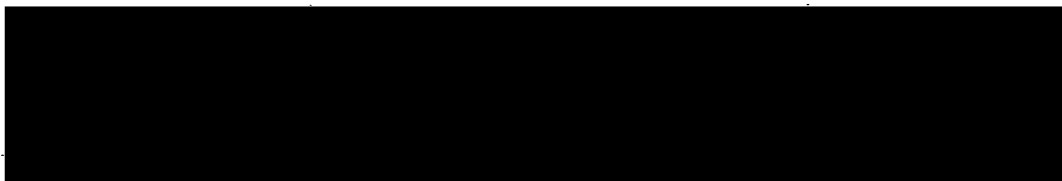

Athletic Field

A parade field (K) is located in area D1.
